ELSEVIER

CONTENTS
VOLUME 47, 1998

Review Articles

Morphological substrates underlying opioid, epinephrine and γ-aminobutyric acid inhibitory actions in the rat locus coeruleus.
Van Bockstaele, E. J. 1

Angiotensin receptors in the nervous system.
Allen, A. M., I. Moeller, T. A. Jenkins, J. Zhuo, G. P. Aldred, S. Y. Chai, and F. A. O. Mendelsohn 17

Articles

Specificity of interleukin-1β-induced changes in monoamine concentrations in hypothalamic nuclei: Blockade by interleukin-1 receptor antagonist.
MohanKumar, S. M. J., P. S. MohanKumar, and S. K. Quadri 29

Truncated green fluorescent protein mutants and their expression in *Aplysia* neurons.
Kim, H.-K., and B.-K. Kaang 35

Propriospinal neurons in the C1-C2 spinal segments project to the L5-S1 segments of the rat spinal cord.
Miller, K. E., V. D. Douglas, A. Brent Richards, M. J. Chandler, and R. D. Foreman 43

Suppressive effect of vagal afferents on the activity of the trigeminal spinal neurons related to the jaw-opening reflex in rats: Involvement of the endogenous opioid system.
M. Takeda, T. Tanimoto, K. Ojima, and S. Matsumoto 49

Behavioural and hormonal effects of restraint stress and formalin test in male and female rats.
Aloisi, A. M., I. Ceccarelli, and C. Lupo 57

Impaired arterial baroreflex regulation of heart rate after blockade of P_2-purinoceptors in the nucleus tractus solitarius.
T. J. Scislo, E. Ergene, and D. S. O'Leary 63

Effects of brain testosterone implants on appetitive and consummatory components of male sexual behavior in Japanese quail.
Riters, L. V., P. Absil, and J. Balthazart 69

Role of opioidergic and monoaminergic neurotransmission in the GnRH release mechanism of EBP-primed OVX rats.
Sharma, P., G. Kaur, S. K. Bhardwaj, and G. Kaur 81

Tyrosine phosphorylation is increased in the rat hippocampus during the *status epilepticus* induced by pilocarpine.
Funke, M. G., D. Amado, E. A. Cavalheiro, and M. G. Naffah-Mazzacoratti 87

Long-lasting structural changes in CA3 hippocampal and layer V motor cortical pyramidal neurons associated with self-stimulation rewarding experience: A quantitative Golgi study.
Shankaranarayana Rao, B. S., T. R. Raju, and B. L. Meti 95

Zinc transport from the striatum and substantia nigra.
Takeda, A., Y. Kodama, M. Ohnuma, and S. Okada 103

CONTENTS VOLUME 47 NUMBER 2 SEPTEMBER 15, 1998

Review Articles

Distribution of calbindin D-28k and parvalbumin neurons and fibers in the rat basal ganglia.
Hontanilla, B., A. Parent, S. de las Heras, and J. M. Giménez-Amaya 107

A sequential view of neurotransmitter release.
Zheng, X., and J. A. Bobich 117

Interactions between the presynaptic α_2-autoreceptor and presynaptic inhibitory heteroreceptors on noradrenergic neurones.
Schlicker, E., and M. Göthert 129

Articles

Suppression of inflammation by dexamethasone prolongs adenoviral vector-mediated transgene expression in the facial nucleus of the rat.
Hermens, W. T. J. M. C., and J. Verhaagen 133

The organization of the ipsilateral corticocortical projections of the middle sylvian gyrus (AII) in the cat cerebral cortex: An anterograde and retrograde tracing study.
Izumi, M., and Y. Nakamura 141

Involvement of nitric oxide in extrinsic nervous control of ileal contractile activity.
Mizhorkova, Z., E. Milusheva, and M. Papasova 151

Expression of Fos in the superior lateral subdivision of the lateral parabrachial (LPBsl) area after generalized tonic seizures in rats.
Eells, J. B., R. W. Clough, and R. A. Browning 155

Effect of electrolytic and chemical lesion by ibotenic acid of the septal area on water and salt intake.
Saad, W. A., L. A. de Arruda Camargo, J. Antunes-Rodrigues, and S. Simões 163

The fasciculus retroflexus controls the integrity of REM sleep by supporting the generation of hippocampal theta rhythm and rapid eye movements in rats.
Valjakka, A., J. Vartiainen, L. Tuomisto, J. T. Tuomisto, H. Olkkonen, and M. M. Airaksinen 171

Neurotrophin-mediated neuroprotection by solid fetal telencephalic graft in middle cerebral artery occlusion: A preventive approach.
Hortobágyi, T., T. Harkany, R. Reisch, R. Urbanics, M. Kálmán, C. Nyakas, and Z. Nagy 185

Erratum 193

CONTENTS VOLUME 47 NUMBER 3 OCTOBER 1998

Editorial

1898–1998: Camillo Golgi and "the Golgi": One hundred years of terminological clones.
Fabene, P. F., and M. Bentivoglio 195

History of Neuroscience

The history of the Golgi apparatus in neurones from its discovery in 1898 to electron microscopy.
Dröscher, A. 199

Articles

Effects of halothane and methoxyflurane on the hypothalamic-pituitary-adrenal axis in rat.
Karuri, A. R., L. R. Engelking, and M. S. A. Kumar 205

Effects of a lesion in the dorsal raphe nuclei performed during the juvenile period of the female rat, on puberty.
Ayala, M. E., J. Monroy, L. Morales, M. E. Castro, and R. Domínguez 211

Rate of neuronal fallout in a transsynaptic cerebellar model.
Triarhou, L. C. 219

Mitogen-activated protein kinase is increased in the limbic structures of the rat brain during the early stages of *status epilepticus*.
Garrido, Y. C. S., E. R. G. Sanabria, M. G. Funke, E. A. Cavalheiro, and M. G. Naffah-Mazzacoratti 223

Modulation of TNF-α mRNA production in rat C6 glioma cells by TNF-α, IL-1β, IL-6, and INF-α: *In vitro* analysis of cytokine-cytokine interactions.
Gayle, D., S. E. Ilyn, M. E. Miele, and C. R. Plata-Salamán 231

Vulnerability to stressor-induced disturbances in self-stimulation from the dorsal and ventral A10 area: Differential effects of intraventricular D-Ala^2-Met^5-enkephalinamide, D-Ala^2, N-Me-Phe^4, Gly-Ol^5-enkephalin, and D-Pen^2, D-Pen^5-enkephalin administration.
Zacharko, R. M., C. Maddeaux, A. L. O. Hebb, P. D. Mendella, and N. J. Marsh 237

Human working memory capacity is 7 ± 2 in a radial maze with distracting interruption: Possible implication for neural mechanisms of declarative and implicit long-term memory.
Glassman, R. B., K. M. Leniek, and T. M. Haegerich 249

Endothelium-dependent relaxation to hydrogen peroxide in canine basilar artery: A potential new cerebral dilator mechanism.
Yang, Z.-W., A. Zhang, B. T. Altura, and B. M. Altura 257

African tyrpanosomiasis in the rat alters melatonin secretion and melatonin receptor binding in the suprachiasmatic nucleus.
Kristensson, K., B. Claustrat, J. D. M. Mhlanga, and M. Møller 265

Daily and seasonal variations in the concentration of melatonin in the human pineal gland.
Luboshitzky, R., D. Yanai, Z. Shen-Orr, E. Israeli, P. Herer, and P. Lavie 271

Intracerebroventricular infusion of CRF increases extracellular concentrations of norepinephrine in the hippocampus and cortex as determined by *in vivo* voltammetry.
Zhang, J.-J., A. H. Swiergiel, V. S. Palamarchouk, and A. J. Dunn 277

Structural correlates for down-regulation of m1 and m2 muscarinic receptor subtypes.
Malatynska, E., S. Waite, H.-B. Wei, R. J. Knapp, H. I. Yamamura, and W. R. Roeske 285

CONTENTS VOLUME 47 NUMBER 4 NOVEMBER 1, 1998

History of Neuroscience

Cortical structure and mental skills: Oskar Vogt and the legacy of Lenin's brain.
Bentivoglio, M. 291

Review Article

Frontostriatal deficits in unipolar major depression.
Rogers, M. A., J. L. Bradshaw, C. Pantelis, and J. G. Phillips 297

Articles

Opposite effects of angiotensin II and IV in the lateral nucleus of the amygdala.
von Bohlen und Halbach, O., and D. Albrecht 311

Manipulations during forced wakefulness have differential impact on sleep architecture, EEG power spectrum, and Fos induction.
García-García, F., L. Beltrán-Parrazal, A. Jiménez-Anguiano, A. Vega-González, and R. Drucker-Colín 317

Cellular distributions of AMPA glutamate receptor subunits in fetal ventral mesencephalon transplants in the dopamine-depleted striatum of a rat.
Todaka, K., Y. Ishida, I. Kuwahara, T. Nishimori, and Y. Mitsuyama 325

Obesity due to high fat diet decreases the sympathetic nervous and cardiovascular responses to intracerebroventricular leptin in rats.
Lu, H., Z. Duanmu, C. Houck, K.-L. C. Jen, A. Buison, and J. C. Dunbar 331

Differing acute interactions of ethanol with two structurally related dihydropyridines, nitrendipine and felodipine.
Watson, W. P., N. Homewood, and H. J. Little 337

Effects of aging and glucocorticoid treatment on monoamine oxidase subtypes in rat cerebral cortex: Therapeutic implications.
Slotkin, T. A., F. J. Seidler, and J. C. Ritchie 345

Effects of sexual behavioral manipulation on brain plasticity in adult rats.
Prince, K. N., J. S. Prince, E. W. Kinghorn, D. E. Fleming, and R. W. Rhees 349

Expression of Fos immunoreactivity in the rat supraspinal regions following noxious visceral stimulation.
Rodella, L., R. Rezzani, M. Gioia, G. Tredici, and R. Bianchi 357

Expression of Fos in the circadian system following nonphotic stimulation.
Mikkelsen, J. D., N. Vrang, and N. Mrosovsky 367

The corticocortical projections of the physiologically defined eye field in the rat medial frontal cortex.
Guandalini, P. 377

Calcitonin gene-related peptide and neuropeptide Y in the raccoon cuneate nucleus.
Dick, S. H., L. A. Tremere, and D. D. Rasmusson 387

CONTENTS VOLUME 47 NUMBER 5 NOVEMBER 15, 1998

Special Issue: Motion Sickness

Foreword
B. de Graaf, M. A. Gresty 393

Physiological Basis of Motion Sickness

Physiological basis and pharmacology of motion sickness: An update.
Yates, B. J., A. D. Miller, and J. B. Lucot 395

Effects of *N*-methyl-D-aspartate antagonists on different measures of motion sickness in cats.
Lucot, J. B. 407

Influences of neck afferents of sympathetic and respiratory nerve activity.
Bolton, P. S., I. A. Kerman, S. F. Woodring, and B. J. Yates 413

Perspectives of electrogastrography and motion sickness.
Cheung, B., and P. Vaitkus 421

Relationship between motion sickness, migraine and menstruation in crew members of a "round the world" yacht race.
Grunfeld, E., and M. A. Gresty 433

Postural Control and Motion Sickness

Postural instability precedes motion sickness.
Stoffregen, T. A., and L. J. Smart, Jr. 437

Self-induced motion sickness in unperturbed stance.
Smart, Jr., L. J., R. J. Pagulayan, and T. A. Stoffregen 449

Static posture tests for the assessment of postural instability after virtual environment use.
Cobb, S. V. G., and S. C. Nichols 459

Evaluating sensory conflict and postural instability. Theories of motion sickness.
Warwick-Evans, L. A., N. Symons, T. Fitch, and L. Burrows 465

Relationship between postural control and motion sickness in healthy subjects.
Owen, N., A. G. Leadbetter, and L. Yardley 471

Orientation and Motion Sickness

Motion sickness and development of synergy within the spatial orientation system. A hypothetical unifying concept.
Guedry, F. E., A. R. Rupert, and M. F. Reschke 475

Motion sickness: Only one provocative conflict?.
Bles, W., J. E. Bos, B. de Graaf, E. Groen, and A. H. Wertheim 481

Roll motion stimuli: Sensory conflict, perceptual weighting and motion sickness.
de Graaf, B., W. Bles, and J. E. Bos 489

Relationship between selected orientation rest frame, circular vection and space motion sickness.
Harm, D. L., D. E. Parker, M. F. Reschke, and N. C. Skinner 497

Motion sickness amelioration induced by prism spectacles.
Vente, P. E. M., J. E. Bos, and G. de Wit 503

Motion Sickness Scoring and Modelling

Motion sickness susceptibility questionnaire revised and its relationship to other forms of sickness.
Golding, J. F. 507

Contributions of roll and pitch to sea sickness.
Wertheim, A. H., J. E. Bos, and W. Bles 517

Influence of different conditions for tilt compensation on symptoms of motion sickness in tilting trains.
Förstberg, J., E. Andersson, and T. Ledin 525

Modelling motion sickness and subjective vertical mismatch detailed for vertical motions.
Bos, J. E., and W. Bles 537

Coriolis effects and motion sickness modelling.
Bles, W. 543

CONTENTS VOLUME 47 NUMBER 6 DECEMBER 1998

Review Article

Frontal syndrome as a consequence of lesions in the pedunculopontine tegmental nucleus: A short theoretical review
Winn, P. 551

Original Articles

Glutamate/aspartate and leu-enkephalin immunoreactivity in mammillothalamic projection neurons of the rat
Gonzalo-Ruiz, A., L. Morte, and J. M. Sanz 565

Resistance of gonadotropin-releasing hormone neurons to glutamatergic neurotoxicity
Ebling, F. J. P., A. S. Cronin, and M. H. Hastings 575

Striatal grafts alleviate deficits in response execution in a lateralised reaction time task
Döbrössy, M. D., and S. B. Dunnett 585

Discharge properties of single neurons in the dorsal nucleus of the lateral lemniscus of the rat
Bajo, V. M., A. E. P. Villa, F. de Ribaupierre, and E. M. Rouiller 595

The midbrain dopaminergic cell groups in the baboon *Papio ursinus*
McRitchie, D. A., H. Cartwright, S. M. Pond, C. J. van der Schyf, N. Castagnoli, Jr., D. G. van der Nest, and G. M. Halliday 611

Connections of the rostral ventral respiratory neuronal cell group: An anterograde and retrograde tracing study in the rat
Gaytán, S. P., and R. Pásaro 625

$GABA_A$ receptor α4 subunit in DBA/2J and C57BL/6J mice
Cestari, I. N., Z. F. Liu, W. Mu, and D. R. Burt 643

Instrinsic optical signals *in vitro*: A tool to measure alterations in extracellular space with two-dimensional resolution
Holthoff, K., and O. W. Witte 649

Procaine injection into the paraventricular nucleus reduces sympathetic and thermogenic activation induced by frontal cortex stimulation in the rat
Monda, M., A. Sullo, V. De Luca, and A. Viggiano 657

Time-dependent effects of levodopa on regional brain dopamine metabolism and lipid peroxidation
Loeffler, D. A., P. A. LeWitt, P. L. Juneau, D. M. Camp, L. A. Arnold, and K. Hyland 663
